

Uprinting.com

This vendor provides satisfactory service along with competitive pricing.

You will need to upload the Car Magnet Image Files provided on the ezCash4Life.com promotions page when designing your project. You can use the Car Magnet Sign on the promotions page as a guideline (ezcash4life.com/promotions.html).

Below are directions for designing your Car Magnet at Uprinting.com (As of May 1, 2019).

Go to: ezCash4Life.com/promotions.html and download car magnet image files to your computer. You will need (Car Magnet **File Size**, Car Magnet **File Numbers**, and Car Magnet **File ezCash4Life.com**).

Note: Any Car Magnet image file size chosen **can be reduced** to a size of your preference, but you would need to set the design template for that specific measurement before beginning your project (e. g., a 24" x 12" **can reduce** to a 22" x 11" and so on). Select the closest preset Car Magnet image file size when creating a sign with a size of your preference.

Go to: **Uprinting.com** (Create an account)

Note: You must be logged in before beginning a project or your project may be lost.

Click – Magnets

Click – Car Magnets

Click – Car Magnet Size (Dropdown opens)

Click – Custom Size

Unit – Inches

Select – Width and Height

Material – 30pt. Magnetic Stock

Quantity – (2 recommended, best value)

Printing Time – (3 business days recommended)

Click – Create Your Design Online (Enables you to add multiple images to your design)

Upload Your File & Order Now option, does Not allow you to add multiple images to your design.

Design Tool Opens (Sign measurement appears on top left corner)

Caution: Do Not click the back button on your browser, project will be lost.

Click – Upload Images From Your Computer Tab (Insert Image dialog box opens)

Click – Click to upload

Locate the sign image (Width and Height selected for your project) – Click Image – Click Open (Image uploads)

Click Image – Click Insert image (Image appears in design tool)

Resize Image (Pull image from Top, Bottom, or Corners Slowly, measurement appears as image stays in proportion, pull image until the measurement reads the **width size** of the sign size you selected)

Note: The height measurement can exceed by a margin of .01 to .09 with minor visible issues regarding the Gold border.

If height measurement exceeds a margin of .09, delete image from work space, and insert the image again and Pull Slowly.

Click Align – Click Align Center – Click Align Middle – Click Lock

Click – Preview to ensure there is no visible white outside of the Gold border, and that the Gold border is not being cut.

If adjustments are needed, double click the image to unlock, make adjustments and Lock.

Click – Upload Images From Your Computer Tab (Insert Image dialog box opens)

Click – Click to upload

Locate ezCash4Life.com image – Click Image – Click Open (Image uploads)

Click Image – Click Insert image (Image appears in design tool)

Continue to upload and insert the Numbers (0 1 2 3 4 5 6 7 8 9) needed for your project

Click – Grid (To help with size and placement)

Resize and Place Images

Click Align – Click Align Middle (For Right and Left movement tap the arrow keys on your keyboard)

Click Background color – Enter **CMYK 0,23,95,57** (Gold) – Click APPLY

Click – Blank area on screen to close color selector

Click – Preview, check your design; make any adjustments necessary. When satisfied, **Lock** all images and save your project.

Note: Use the Car Magnet Sign on the promotions page as a guideline for your design (ezcash4life.com/promotions.html).

Click Save – Name Project (e.g., Car Magnet W x H) – Click Save
